

TEMPERANCE NOTES

(Conducted by the National Woman's Christian Temperance Union.)

WHO IS RESPONSIBLE?

Judge Pollock of North Dakota, pronouncing sentence upon a man condemned to spend the remainder of his natural life in the state penitentiary, made a scathing denunciation of the liquor traffic. The man had murdered his wife while under the influence of liquor procured across the river in Moorhead, Minn.

"I do not know, and under the present state of our law I never want to know," said the judge, "who sold you the liquor under the influence of which you committed this unnatural crime. Let that man's conscience bring such remorse that its energizing power will never let go, until the largest possible reparation be made. Whoever he was, and wherever he may be at this sad moment; whether his place of business is in the well-adorned and highly-decorated room where tempting viands appeal to the taste, where sweet music delights the ear and lulls to sleep the reasoning faculties; or whether it was in the lowest, dirtiest, man-abandoned, God-forsaken and death-dealing charnel house of despair, where only abides the thoughtless and sullen greed for gain, it matters not; before the bar of God, if not of man, he stands alike with you morally responsible for this horrible crime. The trouble is he is not here with you to receive a merited punishment."

"If your partner in this offense were here he would plead by way of defense that he did not 'by fraud, contrive or force' occasion your drunkenness—a plea which would have to be sustained. An enlightened and long-suffering public will some day, and that day very soon, rise in the majesty of its power, and demand that the legislature strike out the words 'by fraud, contrivance or force' and 'for the purpose of causing him to commit any crime,' and boldly declare that he who in any manner sells intoxicating liquors to another, under the influence of which a crime, whether of murder or of some lesser offense is committed, is equally guilty as a principal in any such crime committed."

BREAD OR WHISKY?

"What shall we now plant, barley or poison and kill our citizens, our young mothers and the unborn, or wheat, to grow bone and brawn and blood and brains and bravery for Britain?" asks Dr. C. W. Saleeby, F. R. S. E., the noted English medical authority, in an article in the Daily Chronicle of Manchester, England. He deprecates the worse than waste in raising barley to make beer and whisky, and turning food material into poison. He quotes the words of the czar of Russia to his minister of finance, "It is not meet that the welfare of the exchequer should be dependent upon the ruin of the spiritual and productive energies of numbers of my loyal subjects," and urges his fellow-countrymen "in this epoch-year of 1915" to "plant wheat instead of whisky; bread instead of beer; life instead of death," adding that "never, perhaps, was there a more fateful choice for the English nation."

WHEN IS A MAN DRUNK?

Judicial authority in Topeka has ruled that a man is drunk if a policeman can detect the odor of liquor on his breath. If, in addition, he talks and laughs boisterously he is drunk and disorderly and guilty of a breach of the peace. If this standard were applied to the city of New York it is estimated that 750,000 people would be arrested as drunk and disorderly every day. In Chicago the number would be 400,000; in Philadelphia, 300,000. The claim of the liquorites that Topeka has a high percentage of drunkenness will not hold water—or any other kind of liquid.

In this connection it may be noted that Topeka, with a population of 47,102, has 29 policemen. The average for 20 American saloon-infested cities with a population of 43,000 to 49,000 is 46 policemen.

SALOON VS. MODERN BUSINESS.

"It isn't the crank who is putting the saloon out of business," remarks the Wichita Beacon. "It's the business man, the railroad man, the banker, the lawyer, the merchant, the men who have to depend upon someone else for efficiency in the various departments of the important work and who have observed the killing effect of booze on the men who have to be responsible for important work."

"They are the men who are getting the goat of the distiller."

"The saloon is up against the modern business age. It is up against an enemy that it cannot throttle or buy or browbeat or bluff, and it might as well save what it can and go out of business."

PASSING OF "BLUE MONDAY."

"Blue Monday in the industries of Kokomo is a thing of the past," says J. E. Frederick of the Kokomo Steel and Iron company. Kokomo City is without saloons. "On Monday our factories are able to secure the same output as on any other day of the week. This was not the case when saloons were running."

OUTLAWED DEBT.

The supreme court of Georgia has decided that a liquor debt is not collectable in that state.

"SAMPLES PACKED SEPARATELY"

"What is your reason for such a decision?"

"My manager thinks it better for business to make every other tour a farewell engagement."
